

## TRACK 10

### New Orleans Funk

SWING 16THS, ♩ = 88

Guitar

Organ

Bass

Drums

1 2 3 4

#### Notes on New Orleans Funk (Track 10):

- This groove has a strong sixteenth-note swing feel.
- The drums provide a strongly syncopated feel. The snare, in particular, is reflective of the New Orleans marching band tradition. Note that unaccented notes in the snare are ghosted.
- Every instrument operates in a two-measure phrase.
- The layers above the drums are mostly concerted but the drums seem to generally groove on their own. This type of loose relationship between the drums and the other instrumental layers is typical of New Orleans funk.
